INTELLIGENT SECURITY. CONFIDENT DECISIONS.

2026 / 01

MEET ZYFORTE

Securing Businesses. Empowering Decisions.

We help organizations stay ahead of cyber threats, understand business risks, and operate with confidence in an increasingly connected world.

ZYFORTE, Inc. is a U.S.-incorporated cybersecurity and technology company delivering enterprise-grade security services and intelligent solutions to businesses worldwide.

We combine cybersecurity expertise, advanced technologies, and AI-powered solutions to help organizations protect critical assets, strengthen security operations, manage evolving risks, and make informed business decisions.

From continuous threat monitoring and incident response to risk intelligence and AI-driven operational insights, we focus on turning complex challenges into practical, measurable business outcomes.

03 / AI VIDEO INTELLIGENCE

Mikshi AI Strategic partner solution

Intelligent Video Analytics Platform

Turn existing cameras into insights for safer, smarter operations.

01 / ZYFORTE PRODUCT

EaglEye

AI-Driven Cyber Fusion Centre

One Platform. Complete Security Visibility.

Unify threat intelligence, security monitoring, and incident response in one powerful platform. Empower security teams to identify threats faster, prioritize risks, and respond with confidence.

EAGLEYE / CORE CAPABILITIES

One Platform. Complete Security Control.

01

Unified Security Visibility

Bring together security data from networks, cloud environments, endpoints, and other connected systems into one centralized view.

02

Intelligent Threat Detection

Identify suspicious activities, correlate security events, and uncover potential threats through intelligent analysis.

03

Contextual Risk Intelligence

Connect threat intelligence, vulnerabilities, and asset information to understand risks and prioritize what matters most.

04

Automated Incident Response

Streamline investigations, coordinate security workflows, and accelerate incident response through intelligent automation.

EAGLEYE / HOW IT HELPS

From Threats to Action.

EaglEye brings your security information together, helps identify potential threats, and enables your team to respond quickly—all from one platform.

01 **CONNECT**
Bring security information from different systems into one place.

02 **IDENTIFY**
Spot unusual activity and detect potential security threats early.

03 **UNDERSTAND**
See what happened, what is affected, and how serious the risk could be.

04 **TAKE ACTION**
Help your team respond quickly, resolve issues, and prevent further damage.

BUILT FOR YOUR BUSINESS

Works across on-premises, cloud, and hybrid environments.

Designed for enterprises and security service providers.

02 / STRATEGIC PARTNER SOLUTION

Satark AI

AI-Powered Cyber Risk Intelligence

Understand Your Risks. Make Smarter Decisions.

Not all cybersecurity risks have the same impact on your business. Satark AI helps you identify what matters most, understand the potential financial impact, and decide where to take action first.

FROM COMPLEX RISKS TO CLEAR DECISIONS

What is at risk?

Know which parts of your business could be affected.

How much could it cost?

Understand the potential financial impact of security risks.

What should you do first?

Prioritize the right actions to protect your business.

Clearer Insights. Smarter Decisions.
Stronger Business Protection.

SATARK AI / DECISION INTELLIGENCE

Clear Answers. At every level.

Early and better decisions
for Cyber Defence with business context.

SATARK AI / BUSINESS VALUE

Understand the Risk. Know What to Do Next.

Satark AI helps businesses understand cybersecurity risks, see how they could affect the business, and make smarter decisions about what to address first.

See the Complete Picture 01

Bring information from different security systems together to get a clear view of potential risks.

Understand the Business Impact 02

Know which risks could affect your business operations, important data, and finances.

Make the Right Decision 03

Identify what needs immediate attention, prioritize actions, and make informed decisions to protect your business.

AI That Explains, Not Just Recommends.

Understand why a risk matters
and why a particular action is recommended.

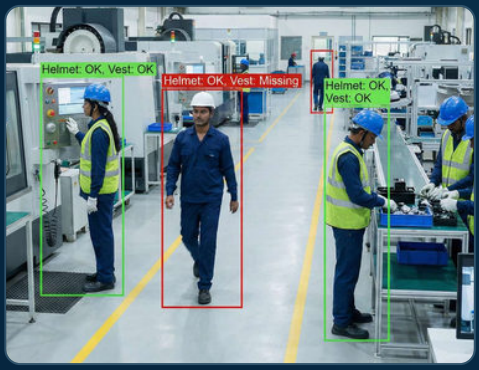

03 / STRATEGIC PARTNER SOLUTION

Mikshi AI

AI-Powered Video Intelligence

Smarter Cameras. Smarter Business.

Mikshi AI transforms your existing CCTV cameras into intelligent monitoring systems, helping businesses improve workplace safety, track daily activities, and make better operational decisions.

MANUFACTURING INTELLIGENCE

RETAIL INTELLIGENCE

Safer Workplaces

Identify potential safety concerns and monitor workplace activities.

Smarter Monitoring

Understand what is happening across your business in real time.

Better Efficiency

Gain useful insights to improve productivity and everyday operations.

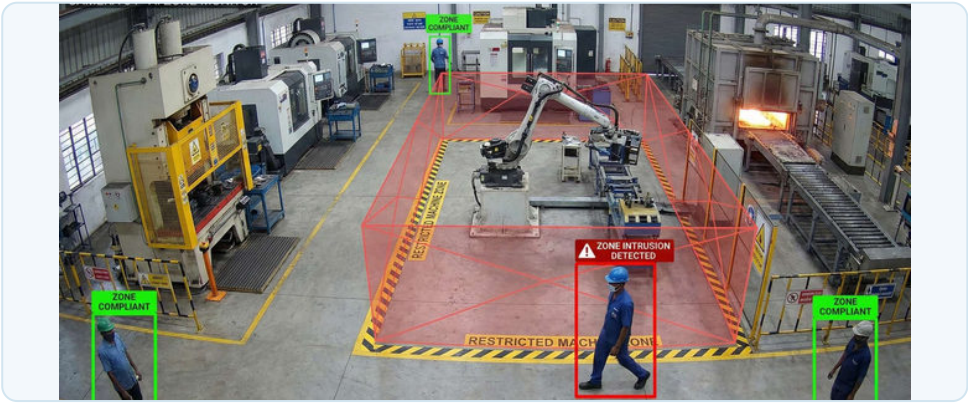

One Intelligent Solution. Multiple Industries.

Designed for manufacturing facilities, retail stores, and other business environments.

MIKSHI AI / MANUFACTURING

Safer Workplaces. Smarter Manufacturing.

Turn your existing CCTV cameras into smart monitoring systems that help improve worker safety, track factory activities, and make everyday operations more efficient.

Product use-case illustration.

Worker Safety & Protection

Monitor safety equipment, identify unsafe activities, and detect potential workplace hazards to help create a safer working environment.

Vehicle & Material Monitoring

Track vehicle movements, monitor entry and exit points, and keep a better view of materials and activities across your facility.

Workforce & Productivity

Monitor attendance, understand employee activity, and identify opportunities to improve productivity and daily operations.

MIKSHI AI / RETAIL & MALLS

Understand Your Customers. Improve Your Business.

Turn your existing CCTV cameras into smart business tools. Mikshi AI helps retail stores and shopping malls understand customer movement, improve daily operations, and create safer, better shopping experiences.

Product use-case illustration.

01

Customer Insights

Understand how many people visit, where they spend time, and which areas attract the most attention.

02

Smarter Store Operations

Monitor customer queues, staff availability, and busy hours to improve service and everyday efficiency.

03

Safety & Loss Prevention

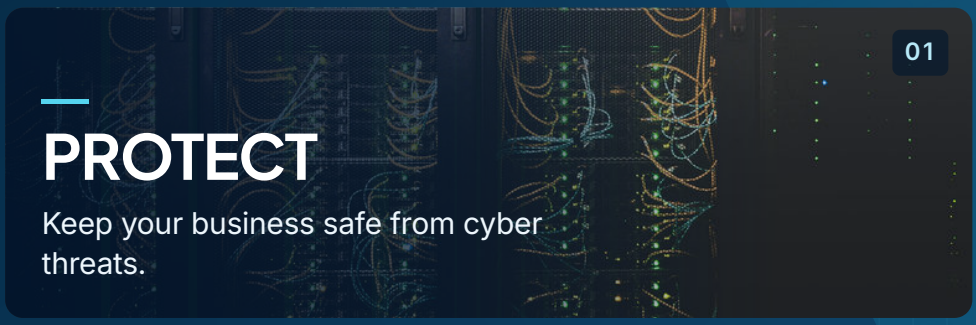

Identify unusual activities, monitor sensitive areas, and help protect customers, employees, and business assets.

AI-powered monitoring and recognition features are used only where authorized and permitted by applicable laws.

CYBERSECURITY SERVICES

Your Business. Our Protection.

We help businesses stay secure with expert cybersecurity services that prevent threats, identify risks, and respond when it matters most.

01

PROTECT

Keep your business safe from cyber threats.

02

DETECT

Identify potential threats before they cause harm.

03

RESPOND

Act quickly to minimize damage and restore security.

— 01 / CYBERSECURITY SERVICES

PROTECT

Reduce Risk Before It Becomes a Problem.

We help businesses strengthen security, fix weak points, and protect important systems before an attack happens.

01
Cyber Risk Management
See where your business could be exposed.

02
Vulnerability & Penetration Testing
Find security gaps before attackers do.

03
Application Security
Keep websites and business apps secure.

04
Cloud Security
Protect cloud systems, users, and data.

05
Internal Infrastructure Security
Secure networks, servers, and devices.

06
Red Teaming
Test how well your security can handle real attacks.

07
Compliance & Security Advisory
Build the right security practices for your business.

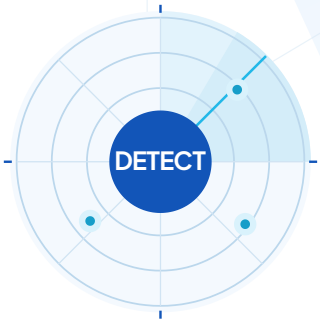

Stronger Foundations. Lower Risk. Better Resilience.

— 02 / CYBERSECURITY SERVICES

DETECT

Identify Threats Before They Become Bigger Problems.

We continuously monitor your business systems, identify suspicious activities, and help your team take action before threats cause serious harm.

01
Managed Security Operations
Keep watch over your business systems and security activities.

02
Managed Detection & Response
Identify threats and get expert support to respond quickly.

03
Network Detection & Threat Hunting
Find hidden threats and unusual activity across your network.

04
Threat Intelligence
Stay informed about emerging threats that could affect your business.

05
Threat Monitoring
Identify warning signs and suspicious behavior early.

06
Malware Detection
Detect harmful software that could put your systems at risk.

07
Personal Data Detection
Find sensitive information that may be exposed or at risk.

— 03 / CYBERSECURITY SERVICES

RESPOND

When Cyber Incidents Happen, We Help You Take Control.

From stopping an attack to investigating what happened and recovering important data, our experts help businesses respond confidently and minimize disruption.

01 CONTAIN → 02 INVESTIGATE → 03 RECOVER

01
Incident Response
Contain cyber incidents and take the right steps to reduce damage.

02
Ransomware Response
Respond to ransomware attacks and support safe recovery.

03
Digital Forensics & Incident Response
Investigate incidents, collect evidence, and guide recovery.

04
Digital Forensic Investigation
Understand how an incident happened and what was affected.

05
Forensic Data Collection
Collect and preserve digital information for investigations.

06
e-Discovery & Data Analytics
Find and review important digital records and information.

07
Data Recovery
Help recover lost, damaged, or inaccessible business data.

WORKING WITH ZYFORTE

Your Business. Our Expertise. One Clear Plan.

Every business has different security needs. We work closely with you to understand your challenges, build the right solution, and provide ongoing support as your business grows.

01 UNDERSTAND

We learn about your business, challenges, and security needs.

02 EVALUATE

We identify existing risks and areas that need improvement.

03 PLAN

We recommend the right solutions based on your business goals.

04 DELIVER

We put the agreed solutions in place and help your team get started.

05 SUPPORT & IMPROVE

We provide ongoing guidance and help strengthen your security over time.

SOLUTIONS FOR EVERY INDUSTRY

- Finance
- Healthcare
- Manufacturing
- Retail
- Government
- Technology

Our approach is tailored to each organization's needs and agreed scope.

LET'S CONNECT

Let's Build a More Secure Future. Together.

Whether you're looking to strengthen cybersecurity, explore intelligent technology solutions, or discuss a strategic partnership, we're here to help.
